

Apprenticeship Testing

The Apprentice Committee is attempting to make contact with any and all permanent employee/seniority candidates that have taken the written apprenticeship exam after 8/1/2008 regardless of plant test location.

As you have already been made aware, these individuals that have taken the exam (with or without a threshold passing score) **MUST** log on to <http://generalmotors-skilledtrades.appone.com/> to complete the on-line application and orientation process in order to make sure they have a current and complete candidate profile in the new apprenticeship database system.

It is our intent to ensure that each eligible candidate be afforded every opportunity to participate in the testing, interview and selection procedures. The best way to make this happen is by making sure you have your database profile in place and up to date.

If you are a seniority candidate make sure your contact information has been uploaded for future testing, interview, and placement opportunities, as they present themselves.

The application period ends April 15, 2016

If there are any questions, please contact the UAW-GM Joint Task Team via e-mail at apprenticeship@uaw-gm.org or contact the following.
