

UAW LOCAL 1005 GAMING UNIT NEWSLETTER #1

After discussions by UAW Local 1005 Gaming Bargaining Unit with JACK Casino Management, it has been agreed to reduce the number of double point days.

From April 2017 through the end of the year, 13 days have been changed, along with an additional 5 the first quarter of 2018.

2017

April 14th and 15th

May 27th and 28th

July 1st and 2nd

September 2nd and 3rd

October 7th and 9th

November 11th, 12th and 26th

2018

January 13th, 14th and 15th

February 17th and 19th

From the CBA:

The Employer may declare a number of days as high volume/special/promotion days throughout each calendar year; however, the Employer understands the potential negative impact on Team Members when the Employer schedules too many such days.

This is definitely a win for the table game dealers! Increased flexibility works for everyone.

Watch for a new Double point day calendar to be published by JACK Casino.

Important considerations – This agreement will affect only future dates. There is no guarantee that these days will not be double pointed in future years. Discussions will be forthcoming each year on double point days and how to minimize an impact on our membership.
