

UAW LOCAL 1005 GAMING UNIT NEWSLETTER #2

HEALTHCARE-ELIGIBILITY UPDATES:

Recently, some UAW Members have been contacted by JACK Management and told that they have not worked enough hours to be eligible for healthcare insurance going forward. The UAW legal team has been discussing this issue with the JACK legal group.

First, we were able to get all of those impacted to have their insurance extended through the end of February. This is to give us time to work on the problem.

As of right now, we have an agreement from JACK to change their policy from only crediting FMLA leave, to now crediting all approved leaves toward working the number of hours required to maintain eligibility. This new policy will also be applied retroactively.

We remain committed to continue working on this issue. But we have moved the ball significantly forward and wanted to bring the good news to our members.
