

# **NAFTA FIELD HEARING**

***with Rep. Marcy Kaptur***

**Thursday, August 3 • 1:00pm**

**UAW Local 1250  
17250 Hummel Rd. • Brook Park, OH**

Renegotiation of the North American Free Trade Agreement (NAFTA) formally begins this August.

After so many pro-NAFTA lobbyists testified at the NAFTA hearings in Washington, DC controlled by Republican congressional leaders, some Democratic members of Congress are holding their own field hearings to get input from a more diverse set of witnesses. These are being organized all over the country, with one right here in Greater Cleveland.

Please join us at the Brook Park event to hear from working people, family farmers, environmentalists and others about NAFTA's impacts on Ohio and their visions for a fair NAFTA replacement deal that would benefit the majority of people in our state and beyond.
