

Black Lake Update: UAW Conferences, Meetings & Events

We have received the following information regarding Black Lake:

The pandemic at this point has taken an unfortunate path as there are new, highly infectious Covid-19 variants and increasing case surges in multiple states, especially Michigan. Expanding positivity rates of infection, growing cases per 100,000 population data and increasing hospitalizations. Health orders in most states have been easing and vaccines are being distributed at acceptable levels, yet this terrible pandemic continues to spread.

Normalcy will not occur until herd immunity has been achieved through continued vaccination efforts. Doctors and scientists are expecting to reach 70% herd immunity by late 2021.

At this time, we will be cancelling all UAW conferences, meetings and events at the UAW Black Lake Conference Center until January 1, 2022. There will be a review of this policy on or before November 1, 2021.

I will keep you posted with any updates.

Wayne,
Wayne Blanchard, Director
Region 2B, UAW
